We're the location to get for your book that is referred. And today, your own time to acquire this guide as among the compromises has become ready. "Yeah," he confirmed, applying a blue crayon to a grinning bunny that was dancing with a squirrel..And somewhere Selma Galloway, their neighbor, was not a spinster but a married woman with grandchildren..Tuesday, January 9, having cashed out a number of investments during the past ten days, Junior made a wire transfer of one and a half million dollars to the Gammoner account in the Grand Cayman bank..Victoria Bressler lay on the floor of the small foyer, left arm extended past her head, palm revealed, as though she were waving at the ceiling, right arm across her body in such a way that her hand cupped her left breast. One leg was extended straight, the other knee drawn up almost demurely. If she had been nude, lying against a backdrop of rumpled sheets or autumn leaves, or meadow grass, she would have had the

perfect posture for a Playboy centerfold. Indeed, as Celestina and the kid reached the foot of the steps to this second house, Bartholomew pointed, and the woman turned to look back. She appeared to stare straight at the Mercedes, though the fog made it impossible for Junior to be sure. As she clambered through the open door into Celestina's lap, the girl said, "Uncle Wally gave me an Oreo." support as he had only pretended to need it previously. He felt as if he had become the mere shell of a man and that the right note would shatter him as a properly piercing tone can shatter crystal. Almost as an afterthought, as he was leaving, he tucked the brochure for "This Momentous Day" into a jacket pocket. There would be amusement value in hearing a group of cutting-edge young artists analyze Celestina's greeting-card images. Besides, as the Academy of Art College was the premier school of its type on the West Coast, a few of the partygoers might actually know her and be able to give him some valuable background. The party raged in a cavernous loft on the third-and top-floor of a converted industrial building, the communal residence and studio of a group of artists who believed that art, sex, and politics were the three hammers of violent revolution, or something like that. By the time he put his suitcase and three boxes of books--the collected works of Zedd and selections from the Book-of-the-Month Club-in the Suburban, Junior had rushed twice more to the bathroom. His legs were shaky, and he felt hollow, frail, as if he'd lost more than was apparent, as if the essential substance of himself was gone. "She was a hero, just like you. I wanted you ... I wanted you to see her and to know her name. Perri Damascus. That was her name." Professional magic was not a field in which many Negroes could find their way to success. Obadiah was one of a rare brotherhood. A pathologically suspicious cop, aware of Junior's acute.; emesis following Naomi's death, might imagine a connection between this epic bout of diarrhea and Victoria's murder, and Vanadium's disappearance. Here was an avenue of speculation that he did not want to encourage. He had already reviewed twenty-four thousand names, finding no Bartholomew, putting red checks beside entries with the initial B instead of a first name. A slip of yellow paper marked his place. The need for relief was tremendous, inexpressible, and the urge to urinate was irresistible, and yet he could not let go. For more than eighteen hours, his natural urinary process had been overridden by concentrative meditation. Now the golden vault was locked tight. Every time that he strained for release, a new and more hideous cramp savaged him. He felt as if Lake Mead filled his distended bladder, while Boulder Dam had been erected in his urethra. She was shaking and so afraid, not thinking clearly, and for a moment she didn't understand what he meant, what he wanted, and then she saw that the window on his side of the car was shattered, too, and that the door beyond him was badly torqued, twisted in its frame. Worse, the side of the Pontiac had burst inward when the pickup plowed into them. With a steel snarl and sheet-metal teeth, it had bitten into Joey, bitten deep, a mechanical shark swimming out of the wet day, shattering ribs, seeking his warm heart. He gently drew the covers over his wife's ruined body, to her thin shoulders, but arranged her right arm on top of the blankets. He straightened and smoothed the folded-back flap of the top sheet. "It isn't just the rotten railing," Junior said, still paging through the report, his outrage growing. "The stairs are unsafe." This philosophy had worked for him previously, but forgetting the aftermath was more difficult when the aftermath was your own poor, torn, severed toe. Your own poor, torn, severed toe was infinitely more difficult to ignore than a busload of dead nuns. Then he closed his eyes, held the revolver in both hands, and at point-blank range, he shot the dead woman twice. And though Barty was not shy, neither was he a show-off. He didn't seek praise for his accomplishments, and in fact, they were little known outside of his immediate family. His satisfaction came entirely from learning, exploring, growing. In spite of the ravages of illness and age, beauty remained in the old woman's face. Her bone structure was superb. In youth, she must have been stunning. He was nearly forty years old, and a life spent fearing nature could not be turned easily into a romance with her. Some nights he still stared at the ceiling, unable to sleep, waiting for the Big One, and he avoided walks on the shore in respect of deadly tsunamis. From time to time, he visited his brother's grave and sat on the grass by the headstone, reciting aloud the gruesome details of deadly storms and catastrophic geological events, but he found that he had also absorbed from Jacob some of the statistics related to serial killers and to the disastrous failures of manmade structures and machines. These visits were pleasantly nostalgic. But he always came with roses, too, and brought news of Barty, Angel, and other members of the family. When Paul sold his house to move in with Agnes, Tom Vanadium settled into Jacob's former apartment, now a fully retired cop but not yet ready to return to a life of the cloth. He assumed the management chores of the family's expanding community work, and he oversaw the establishment of a tax-advantaged charitable foundation. Agnes provided a list of fine-sounding and self-effacing names for this organization, but a majority vote rejected all her suggestions and, in spite of her embarrassment, settled on Pie Lady Services. The quarter, surely. The one that had not been in his robe pocket where it should have been, the previous Friday. "It's chilly and foggy and late, and there might be villains afoot at this hour," he intoned with mock gravity. "The two of you are Lipscomb women now, or soon will be, and Lipscomb women never go unescorted through the dangerous urban night." At sunset, the boy stood in the backyard, gazing up through the branches of the giant oak as an orange sky darkened to coral, to red, to purple, to indigo. "It's not scary," said Mary. "I just step into another place for a little, and then back. It's just like going from one room to the next. I can't get stuck over there or anything." She looked at Barty. "You know how it is, Dad." Her hands were slender, long-fingered, graceful. The hands of an artist. They were not powerful hands. Celestina circled him, half carrying but also half dragging the chair, either because her nerves were still ringing and her arms were weak--or because she was faking weakness in the hope of luring him to a reckless response. Junior circled her while she rounded oil him frantically trying to deal with the pistol without taking his eyes off his adversary. After Victoria had departed, Junior lay smiling at the ceiling, floating on Valium and desire. And vanity. "I'm a healer, not a prosecutor. I'm not in the habit of making accusations, especially not against my own patients." Barty's reading and writing skills appeared to be related to his talent for math, as well. To him, language was first phonics, a sort of music that symbolized objects and ideas, and this music was then translated into written "syllables using the alphabet-which he saw as a system of math employing twenty-six digits instead of ten. Agnes pulled the stack of cards in front of her. She discarded the first two, as Maria would have done, and turned over the third. "I'll come by at eight o'clock for breakfast," Wally suggested. "We have to set a date." The singular beauty of San Francisco and the exquisite patina of its colorful history spoke to her heart and kindled in her such an unreasonable passion that she sometimes wondered, at least half seriously, if she had spent other lives here. Often, streets were wondrously familiar to her the first time that she set foot on them. Certain great houses, dating from the late 1800s and early 1900s, inspired her to imagine elegant parties thrown. Angel didn't join the grieving women, but sat on the floor in front of the television, switching back and forth between Gunsmoke and The Monkees. Too young to be genuinely involved in either show, nevertheless she occasionally made gunfire sounds when Marshal Dillon went into battle or invented her own lyrics to sing along with the Monkees. With a nervous twitch of his avian head and a wary frown,

the watcher broke eye contact and slipped into the chattering crowd, lost as quickly as a slender sandpiper skittering among a herd of plump seagulls. Rena was cheerful, short, and solid. Her waist measurement must have been two-thirds her height, and she favored floral dresses that emphasized her girth. With a German accent and in a voice that always seemed about to dissolve in a great gale of mirth, she said, "Madchen lieb, you look like a Christmas candle to me." Leaving Frieda unconscious and reeking, a condition in which her bralessness had no power to arouse him, Junior left. During the past ten days, he'd proved that he was clever, bold, with exceptional inner resources. He needed to tap his deep well of strength and resolve now, more than ever. He'd been through far too much, accomplished too much, to be brought down by mere biology. "I mean," said Dr. Lipscomb, "that I'm selling my practice and putting an end to my medical career. I wanted you to know." Celestina, standing next to Agnes, put an arm around her waist, as perhaps she had once been in the habit of doing with her sister. Overlaying the birthmark were brighter stains. The plain face, less homely now, was less flat, too, pocked and torn into a new and horrendous geography. He found it difficult to make a painful personal revelation sound sincere when delivered in a shout, but he managed well enough to bring a shine of tears to her eyes: "Part of my left foot was shot off in this upcountry sweep we did." Standing near the foot of the bed in a shapeless blue suit, Vanadium might have been the work of an eccentric artist who had carved a man out of Spam and dressed the meaty sculpture in thrift-shop threads. Agnes wasn't able to interpret his expression, not because he was in the least difficult to read, but because her perceptions were skewed by sudden fear and a flood of adrenaline. Her heart seemed to spin like a flywheel in her breast. Soon he realized this was a mistaken assumption, because when the instructor began trying to unknot him from his lotus position, a defensive numbness deserted Junior, and he became aware of pain. Excruciating. Paul's Mediterranean complexion didn't make a blush easy to detect, but Tom thought his face brightened until it was a shade or two closer to the color of his rust-red hair. His eyes, usually so direct, evaded Celestina. Evidently, the hero was accustomed to encounters of this nature. He rose, pulled out the unused fourth chair. "Please sit with us." Celestina hardly knew Paul, and although he'd saved her mother's life, his offer raised a look of doubt from her. Tom received a fierce hug, too, and a sisterly kiss, and he was grateful for them. He had been a loner for too long, as a hunter of men pretty much had to be when on a long hard road of recuperation and then on a mission of vengeance, even if he called it a mission of justice. During the few days he'd spent guarding Celestina and Grace and Angel in the city, and subsequently during the week with Wally, Tom had felt that he was part of a family, even if it was just a family of friends, and he had been surprised to realize how much he needed that feeling. A man came out of the stone tower. He passed them, walking hurriedly with a queer shambling gait, staring straight ahead. His chin shone and his chest was wet with spittle leaking from his lips. could spring the new deadbolts as easily as the old. Therefore, on the interior of the front and back doors, Junior added sliding bolts, which couldn't be picked from outside. "And maybe," said Agnes, caught up in the speculation, "when your life comes to an end in all those many branches, what you're finally judged on is the shape and the beauty of the tree." Scamp was a multitalented woman, with smoother skin than a depilated peach, with more delicious roundnesses than Junior could catalog, but she proved not to be the remedy for his tension. Only Bartholomew, found and destroyed, could give him peace. She started to get up from the chair behind the desk, but he encouraged her to stay seated. Junior must have shouted shut up more than he realized, because the neighbors began to pound on the wall to silence him. glasses off the table. He seized one of the pewter candlesticks, as well, knocking the candle out of it. Tom Vanadium rose to his feet and, with one hand on Barty's shoulder, he surveyed the faces of those gathered on the porch. Most of these people were such new acquaintances that they were all but strangers to him. Nevertheless, for the first time since his early days in St. Anselmo's Orphanage, he'd found a place where he belonged. This felt like home.
