Short and slender, Dr. Chan was as self-effacing as a Buddhist

monk, as confident and as gracious as a mandarin emperor. His manner was serene, and his effect was tranquility. During the following day, January 6, as Phemie was wheeled around the hospital for tests in various departments, Celestina remained in 724, working on her portfolio for a class in advanced portraiture. She was a Junior at the Academy of Art College. Caught unaware by the joke, she laughed. "Well, I'm glad to know I'm good for something. Is there maybe a special pie you'd like me to make today?". He would never allow himself to be bankrupted and made poor again. Never. His fortune had been won at enormous risk, with great fortitude and determination. He must defend it at any cost. Like all women past puberty and this side of the grave, she was attracted to him. She never told him as much, not in words, but he detected this attraction in the way she looked at him, in the tone that she used when she spoke his name. Throughout three weeks of therapy, Seraphim revealed countless small but significant proofs of her desire. draftsman? Having never been nudged in that direction, would Cain have followed a different path that took him far from Celestina and Angel?. "In cases like this, the malignancy is often more advanced in one eye than the other. If the size of the tumor requires it, we remove the eye containing the greatest malignancy, and we treat the remaining eye with radiation." Hunched over his desk, leaning forward conspiratorially, his piggy eyes glittering like those of an ogre discussing his favorite recipe for cooking children, Nolly said, "I've been able to confirm your suspicions. To Edom, humanity was obviously not the greater of these two destructive forces. Men and women were part of nature, not above it, and their evil was, therefore, just one more example of nature's malignant intent. They had stopped debating this issue years ago, however, neither man conceding any credibility to the other's dogma. He woke at noon, eyes gummed shut with the effluence of sleep. He felt lousy, but he was in control of himself-and strong enough to fetch his suitcase, which he'd been unable to carry upon arrival. Because they were smaller than men and could move more easily in narrow places, or because they were at home with the earth, or most likely because it was the custom, women had always worked the mines of Earthsea. These miners were free women, not slaves like the workers in the roaster tower. Gelluk had made him foreman over the miners, Licky said, but he did no work in the mine; the miners forbade it, earnestly believing it was the worst of bad luck for a man to pick up a shovel or shore a timber. "Suits me," Licky said. Her voice was soft, almost a whisper, and charged with anxiety; but under other circumstances, it would have been sexy. Suddenly Junior intuited the identity of the man in the chair. Beyond question, this was the plainclothes police officer with the birthmark. Wally switched off the engine and killed the headlights. "Home, where the heart is." Sometimes Barty could be fierce in his independence-his mother told him so-and now he rebuffed Angel too sharply. "I don't want to be waited on. I'm not helpless, you know. I can get sodas myself" By the time he reached the doorway, he felt sorry for his tone, and he looked back toward where the window seat must be. "Angel?". He had nothing against men or women of color. Live and let live. One earth, one people. All of that. Month by month during Barty's first year, Agnes's belief in his exceptional intelligence was only confirmed by his development. By the end of the second month of life, most babies will smile in response to a smile, and they are able to smile spontaneously in the fourth month. Barty was smiling frequently in his second week. In the third month, many babies laugh out loud, but Barty's first laugh came in his sixth week. Rising, Celestina said to Tom, "Last Tuesday night, we had to switch on the lawn sprinklers. This will be much better." Finally, he said, "What I did was grab the shovel, dig a hole really fast, and bury Muffin in it up to her neck-just until she calmed down." An authoritative note came into Parkhurst's voice, that emperor-of- tone that probably was taught in a special medical-school course on intimidation, though he was striking this attitude a little too late to be entirely effective. "My patient is in a fragile state. He mustn't be agitated, Detective. I really don't want you questioning him until tomorrow at the earliest." In a sudden desperate burst of action, Junior tore at the dead man's closed hand, sprang open the trap of fingers and palm-and did not find a quarter. Nor two dimes and a nickel. Nor five nickels. Nothing. Zip. Zero. Hound was sorry for him. "You know, if it was Gelluk questioning you, he'd have everything you know out of you just with a word or two, and your wits with it. I've seen what old Whiteface leaves behind when he asks questions. Listen, can you work with the wind at all?". In November, Edom asked Maria Gonzalez to dinner and a movie. Although he was only six years older than Maria, both agreed that this was a date between friends, not really a boy-girl thing. Only a dishonest or delusional man, however, could justify Victoria's killing as self-defense. To a degree, he'd been motivated by anger and passion, and Junior was forthright enough to admit this. Any reasonable person would agree that the line between legitimate and harassment was hair-thin. Unfortunately, Caesar Zedd had not written a self-help book on how to commit homicide and escape the consequences thereof, and as before, Junior was entirely on his own. Cops at the doorstep, the lunatic bitch with the chair, the clergyman's curse-all this amounted to more than even a committed man could handle. Get out of the present, go for the future. In his apartment once more, enjoying a cognac and a handful of pistachios as Monday changed to Tuesday, he decided that he should make 'preparations for the possibility that he might one day leave incriminating evidence in spite of his precautions. He ought to convert a portion of his assets into easily portable and anonymous wealth, like gold coins and diamonds. Establishing two or three alternate identities, with documentation, also would be wise. He vanished through some hole, some slit, some tear bigger than anything through which Tom flipped his quarters. he wasn't wholly without feeling, of course. A poignant current of sadness eddied in his heart, a sadness at the thought of the love and the happiness that he and the nurse might have known together. But it was her choice, after all, to play the tease and to deal with him so cruelly. After his conversation with Magusson, however, Junior realized this fear was irrational. If the detective had miraculously escaped the cold waters of the lake, he would have been in need of emergency medical treatment. He would have staggered or crawled to the county highway in search of help, unaware that Junior had framed him for Victoria's murder, too badly wounded to care about anything but getting medical attention... "Don't worry," Celestina told him, "after what we've seen this past week, we're still with you." Yet he brooded even at breakfast, in spite of the consolation of clotted cream and berries, raisin scones and cinnamon butter. In better worlds, wiser Tom Vanadiums chose different tactics that resulted in less misery than this, in a far swifter conveyance of Enoch Cain to the halls of justice. But he was none of those Tom Vanadiums. He was only this Tom, flawed "land struggling, and he couldn't take comfort in the fact that elsewhere he had proved to be a better man.
