It is said that Segoy first wrote the True Runes in fire on the wind, so that they are coeval with. The deeds and lays that tell of raids by dragons and counterforays by wizards portray the dragons as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes wiser than the wizards. Though they speak the True Speech, they are endlessly devious. Some of them clearly enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings, all but the greatest of them conceal their true names. In the lay Hasa's Voyage, the dragons appear as formidable but feeling beings, whose anger at the invading human fleet is justified by their love of their own desolate domain. Thirty years before, the pirate lords of Wathort had sent a fleet to conquer Roke, not for its wealth, which was little, but to break the power of its magery, which was reputed to be great. One of the wizards of Roke had betrayed the island to the crafty men of Wathort, lowering its spells of defense and warning. Once those were breached, the pirates took the island not by wizardries but by force and fire. Their great ships filled Thwil Bay, their hordes burned and looted, their slave takers carried off men, boys, young women. Little children and the old they slaughtered. They fired every house and field they came to. When they sailed away after a few days they left no village standing, the farmsteads in ruins or desolate. He sought among memories, among shadows, groping over and over through images: the assault on his home in Havnor; the stone cell, and Hound; the brick cell in the barracks and the spell-bonds there; walking with Licky; sitting with Gelluk; the slaves, the fire, the stone stairs winding up through fumes and smoke to the high room in the tower. He had to regain it all, to go through it all, searching. Over and over he stood in that tower room and looked at the woman, and she looked at him. Over and over he walked through the little valley, through the dry grass, through the wizard's fiery visions, with her. Over and over he saw the wizard fall, saw the earth close. ONE WINTER AFTERNOON on the shore of the Onneva River where it fingers out into the north bight of the Great Bay of Havnor, a man stood up on the muddy sand: a man poorly dressed and poorly shod, a thin brown man with dark eyes and hair so fine and thick it shed the rain. It was raining on the low beaches of the river mouth, the fine, cold, dismal drizzle of that grey winter. His clothes were soaked. He hunched his shoulders, turned about, and set off towards a wisp of chimney smoke he saw far down the shore. Behind him were the tracks of an otter's four feet coming up from the water and the tracks of a man's two feet going away from it. floor. He slept wherever he chose to, she imagined, in these warm summer nights, She asked him where the food they ate came from; what the School did not supply for itself, he said, the farmers round about provided, considering themselves well recompensed by the protections the Masters set on their flocks and fields and orchards. That made sense to her. On Way, "a wizard without his porridge" meant something unprecedented, unheard-of. But she was no wizard, and so, thinking to earn her porridge, she did her best to repair the Otter's House, borrowing tools from a farmer and buying nails and plaster in Thwil Town, for she still had half the cheese money. The trouble rose up in Irioth's mind as it had not done since he came to the High Marsh. He struggled against it. A man of power had come to heal the cattle, another man of power. But a sorcerer, Alder had said. Not a wizard, not a mage. Only a curer, a cattle healer. I do not need to fear him. I do not need to fear his power. I do not need his power. She was troubled by what he had told her and by her thoughts and feelings in the Grove, and troubled that any thought or feeling could have troubled her there. She went to the house, set out her supper of smoked meat and bread and summer lettuce, and ate it without tasting it. She roamed restlessly back down he streambank to the water. It was very still and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped off her sandals and put her feet in the water. That was no doubt Kalessin taking Ged home, multiplied by sailors making a good story better. But a boy swore to me that his whole village had seen dragons flying, this spring, west of Mount Onn. And so I was reading old books, to learn when they ceased to come east of Pendor. And in one I came on your story, or something like it. That men and dragons were all one kind, but they quarrelled.
