Barty set one other rule: "Without dying first ... and you have to be sure you can get back." The blonde was coming on to him, just as a score of other women had done since his arrival, so Junior tried to balance seduction with information gathering. Putting his hand over the hand with which she was gently massaging his thigh, he said, "I knew her brother in Nam. Then I got wounded, shipped out, lost touch. Like to find him." In spite of the gloom, the boy's miraculous accomplishment was evident: his clothes and hair were dry as though he'd worn a coat and hood. Third, Celestina had a daughter. Not a boy named Bartholomew. Seraphim's baby had been a girl. Named Angel. This confused Junior as much as it stunned him. She kissed his cheek, and he pulled his arms out from under the covers to hug her. Such small arms, but such a fierce hug. His artificial eyes were almost a month old. He'd been through surgery to have the eye-moving muscles attached to the conjunctiva, and everybody told him that the look and movement were absolutely real. In fact, they had told him this so often, in the first week or two, that he became suspicious and figured that his new eyes were totally out of control and spinning like pinwheels. Honor and family. This was life, and everyone lived his life in the shadow of one solemn obligation or another. In the six weeks since conception, she must have missed at least one menstrual period. She hadn't complained of morning sickness, but surely she'd experienced it. It was highly unlikely that she'd been unaware of her condition. The boy dashed for the front passenger's door. Agnes didn't follow him, because she knew that he would politely but pointedly express frustration if any attempt was made to help him with a task that he could perform himself. Now her mooring was Wally Lipscomb-obstetrician, pediatrician, landlord, and best friend--who arrived halfway through the reception. As she listened to Helen Greenbaum's sales report, Celestina held Wally's hand so tightly that had it been a plastic champagne flute, it would have cracked. That last part was true. He just wasn't loose in this world anymore. And in the world to which he'd gone, he would not find easy victims. Agnes added this stop to her route at the request of Reverend Tom Collins, the local Baptist minister whose folks unthinkingly gave him the name of a cocktail. She was friendly with all the clergymen in Bright Beach, and her pie deliveries favored no one creed. Delighted to be dating someone who lived neck-deep in culture especially after two months with Tammy Bean, the money maiden. Junior was surprised that he didn't score with Frieda on the first date. He was usually irresistible even to women who weren't sluts. THE RAIN THAT HAD threatened to wash out the morning funeral finally rinsed the afternoon, but by nightfall the Oregon sky was clean and dry. From horizon to horizon spread an infinity of icy stars, and at the center of them hung a bright sickle moon as silver as steel. The unmatched suite of bedroom furniture, cheap and scarred, might have been purchased at a thrift shop. A double bed and one nightstand. A small dresser. "As I explained, he might have thought I was you," Edom said, staring at the neatly ordered volumes on the nearby bookshelves. Sky grew sullen in the early twilight, and the city once more arrayed itself in the red gesso and gold leaf that had indirectly illuminated Celestina's apartment ceiling the previous night. If Junior were weak-minded enough to succumb to madness, this was the moment when he should have fallen into an abyss of insanity. He heard an internal cracking, felt a terrible splintering in his mind, but he held himself together with sheer willpower, remembering to breathe slowly and deeply. The front door was unlocked. This was no longer one house; it had been converted to an apartment building. "I'm captivated more by painting than I am by most dimensional work," Junior explained. "Really, the only sculpture I've acquired is Poriferan's." With the successful consumption of the burger and with the addition of the third Sklent to his collection, Junior felt more upbeat than he'd been in quite a while. Contributing to his better mood was the fact that he hadn't heard the phantom singer in longer than three months, since the library in July. Sitting on the edge of the bed, taking his hand, she stared at his sweet little bow of a mouth, whereas before she would have met his eyes. "Tell me." Junior spoke the three words aloud and felt a strange resonance between them and his dim memories of Reverend White's voice on that long-ago night. Yet the link, if any actually existed, remained elusive. The same thought had occurred to her, a consolation that might make acceptance of these riches possible. Yet she remained chilled by the thought of receiving a life-changing amount of money as the consequence of a death. Celestina indicated to Tom that he should sit at the head of the table, facing Agnes at the foot. As Wally lowered himself into the empty chair to Tom's left, Celestina picked up two items from the sideboard and put them in front of Tom, before sitting to his right. Unable to run, he raised his arms defensively, crossing them in front of his face, though the impact of the coins wasn't painful. Volleys flicked off his fingers, palms, and wrists. Walking away, he was aware of the many faces at the windows, all as stupid as the faces of cud-chewing cows. He had given them something to talk about when they returned from lunch to their shops and offices. He'd reduced himself to an object of amusement for strangers, had briefly become one of the city's army of eccentrics. They had not come to Junior yesterday in their grief, if in fact they had thought to grieve. The next thing he knew, he was at the kitchen sink, turning off the water, which he couldn't remember having turned on. He appeared to have washed the bloody candlestick--it was clean--but he had no recollection of this bit of housekeeping. She expected him to be gone, snatched by an accomplice who had come in the back way while Deed had distracted her at the front door. He was too sensitive a soul to be able to take either a handsaw or a power saw to a corpse. As Sinatra began to sing "I'll Be Seeing You," Junior stepped around the bloom and the Merlot. He cautiously peeled back two inches of the curtain at one of the sidelights. Following a month of recuperation and postoperative medical care, Junior was able to return to his twice-a-week classes in art appreciation. He resumed, as well, his almost daily strolls through the city's better galleries and fine museums. Agnes called their two-car parade a Christmas caravan, which appealed to Barty's sense of magic and adventure. Repeatedly he turned in his seat and rose to his knees to look back at his uncle Edom, waving vigorously. Ever the romantic, he

wanted to surprise her. Voila! Flowers, wine, and moi. Since their electrifying connection in the hospital, she had been yearning for him; but she wouldn't expect a visit for a few weeks yet. He was eager to see her face brighten with delight. "Thank you, Nurse Bressler," he said most solemnly, matching her tone, barely able to control the urge to glance at her, smile, and give her another preview of his quick, pink tongue. "One hour," he announced, establishing a countdown. In sixty minutes, his internal clock would rouse him from a meditative state. Then he looked up at the massive limbs overhead, and the mood changed: A sense of impending insight at once gave way to the fear that an unsuspected fissure in a huge limb might crack through at this precise moment, crushing him under a ton of wood, or that the Big One, striking now, would topple the entire oak. "Peach, raisin, walnut pies," Agnes said, "with regular bottom crust and a chocolate-crackle top crust." This was only a fraction of Paul's collection. Thousands of additional issues filled rooms at home. Junior in the fog. Trying oh-so-hard to live in the future, where the winners live. But being relentlessly sucked back into the useless past by memory. So Barty and Tom just happened to be chatting about a quantum physicist they had seen on a television program, a documentary about the uncanny resonance between the belief in a created universe and some recent discoveries in quantum mechanics and molecular biology. The physicist claimed that a handful of his colleagues, though by no means the majority, believed that with a deepening understanding of the quantum level of reality, there would in time be a surprising rapprochement between science and faith. No, impossible. He had killed Victoria almost a year and a half before this phone call. When you were dead, you were gone forever. Setting out after dark, Paul had walked south, following the coastal highway. He was accompanied by the windy rush of passing traffic, but later only by the occasional cry of a blue heron, the whisper of a salty breeze in the shore grass, and the murmur of the surf. Without pushing himself too hard, he reached La Jolla by dawn. "That's exactly how I hoped he would be." Relieved, he followed Agnes to the living room. "Listen, Aggie, you know, I don't have anything against Jacob, but—" She loosened her hair and brushed it out, and Nolly took her to dinner at their favorite place, which had the decor of a classy saloon and a bay view suitable for God's table. They came here often enough that the maitre d' greeted them by name, as did their waiter. mother's understanding of the world and of her own existence. Unlike most other toddlers, Barty was entirely comfortable with change. From bottle to drinking glass, from crib to open bed, from favorite foods to untried flavors, he delighted in the new. Although Agnes usually remained near at hand, Barty was as pleased to be put temporarily in the care of Maria Gonzalez as in the care of Edom, and he smiled as brightly for his dour uncle Jacob as for anyone. Startled, Celestina said, "Good grief, you're spooky. How could you know what I'm thinking?" "Well, you're sweet, aren't you? And you're all bright red on the outside and milk chocolate inside," Celestina said, gently tweaking the girl's light brown nose. By the time Junior passed the three offices and found the men's room, Neddy had occupied it. The door was locked, which must mean this was a single-occupant john. The strange barrage of lightning, putting an end to the rain rather than initiating it, had been a clue. The rapid clearing of the sky—indicating a stiff wind at high altitudes, while stillness prevailed at ground level—a sudden plunge in the humidity, and an unseasonable warmth confirmed the coming catastrophe. At sunset, the boy stood in the backyard, gazing up through the branches of the giant oak as an orange sky darkened to coral, to red, to purple, to indigo. Whether the cop was unhinged or not, Junior had nothing to gain by talking to him, especially in this disorienting darkness. He was exhausted, achy, with a sore throat, and he couldn't trust himself to be as. Maria looked stricken when she answered the doorbell, for she intuited that a visit, instead of a call, meant the worst. Nevertheless, his sense of violation grew as he paced these now songless rooms, mystified and frustrated. On April 19, the unmanned Surveyor 3, after landing on the lunar surface, began transmitting photos to Earth, and when Junior stepped out of his morning shower, he again heard the eerie singing, which seemed to arise from a place more distant, more alien, than the moon. The Benediction service had concluded, and the worshipers had departed. Gone, too, were the priest and the altar boys. He looked up into the eyes of the stocky man with the birthmark. They were gray eyes, hard as nail heads, but clear and surprisingly beautiful in that otherwise unfortunate face. "Me, I don't like anything old. This White chick's got a weird thing for old people, old buildings, old stuff in general. Like she doesn't realize she's young. You want to grab her, shake her, and say, 'Hey, let's move on,' you know?" Dusk had arrived, strangling the day, and the throttled sky hung low, as blue-black as bruises. The streetlights had come on. Gouts of red light from pulsing emergency beacons alchemized the rain from teardrops into showers of blood. Barty's mathematical genius proved to have a valuable practical application. Even in his blindness, he perceived patterns where those with sight did not. Working with Tom Vanadium, he devised strikingly successful investment strategies based on subtleties of the stock market's historical performance. By the 1980s, the foundation's annual return on its endowment averaged twenty-six percent: excellent in light of the fact that the runaway inflation of the 1970s had been curbed. And as he grew, the boy seemed content with his own company and that of his mother and his uncles. Yet Agnes worried that no children his age lived in their neighborhood. She thought he would be happier if he had a playmate or two. Among these people was an old man whom they called, among themselves, the Changer. He showed Otter a few spells of illusion; and when the boy was fifteen or so, the old man took him out into the fields by Serrenen to show him the one spell of true change he knew. "First let's see you turn that bush into the seeming of a tree," he said, and promptly Otter did so. Illusion came so easy to the boy that the old man took alarm. Otter had to beg and wheedle him for any further teaching and finally to promise him, swearing on his own true and secret name, that if he learned the Changer's great spell he would never use it but to save a life, his own or another's. "September 27, 1962. Barcelona, Spain. A flood killed four hundred forty-five people." In the neatly ordered bedroom, he removed his shoes. Stretching out on the bed, he stared at the ceiling, feeling useless. He shouldered past two counter waitresses, past the short-order cook who was working eggs and burgers and bacon on the open griddle and grill. Whatever expression wrenched Junior's face, it must have been intimidating, for without protest but with walled alarm, the employees squeezed aside to let him pass. "I'm not saying there's anything wrong with it, you understand," Neddy whispered with a sort of fierce conciliation, "but I'm not gay, and I'm not interested in teaching you the piano or anything else. Besides, after the stories Renee told about you, I can't imagine why you think any friend of his ... hers would get near you. You need help. Renee is what she is, but she's not a bad person, she's generous and she's sweet. She doesn't deserve to be beaten, abused, and ... and all those horrible things you did. Excuse me." Celestina, Grace, even Tom himself, had taken extraordinary measures to leave no slightest trail. Those very few authorities who knew how to reach Tom and, through him, the others, were acutely aware that his whereabouts and phone number must be tightly guarded. When he woke, he was in a hospital bed, his upper body slightly elevated. The only illumination was provided by a single window: an ashen light too dreary to be called a glow, trimmed into drab ribbons by the. As mentally demanding and stressful as it was to maintain this borrowed sight, the harder thing was looking once more upon her face, after all these

years of blindness, only to see her gaunt, so pale. The vital, lovely woman whose image he had guarded so vigilantly in memory would be nudged aside hereafter by this withered version.
