The curer followed. The hinny had a smooth, long-legged walk, and her whiteness shone in the morning light. Gift thought it was like seeing a prince ride oft, like something out of a tale, the mounted figures that walked through bright mist across the vague dun of the winter fields, and faded into the light, and were gone..The weatherworker knew his trade, at least. Sea Otter sped south; they met summer squalls and choppy seas, but never a storm or a troublesome wind. They put off and took on cargo at ports on the north shore of O, at Illien, Leng, Kamery, and O Port, and then headed west to carry the passengers to Roke. And facing the west Ivory felt a little hollow at the pit of his stomach, for he knew all too well how Roke was guarded. "You're there in the water, together, you and the child. You take away the child-name. People may go on using that name for a use-name, but it's not her name, nor ever was. So now she's not a child, and she has no name. So then you wait. You open your mind up, like. Like opening the doors of a house to the wind. So it comes. Your tongue speaks it, the name. Your breath makes it. You give it to that child, the breath, the name. You can't think of it. You let it come to you. It must come through you to her it belongs to. It was a sleepy southern island with a pretty old port town, Telio, built of rosy sandstone, and fields and orchards that should have been fertile. But the lords of Wathort had ruled it for a century, taxing and slave taking and wearing the land and people down. The sunny streets of Telio were sad and dirty. People lived in them as in the wilderness, in tents and lean-tos made of scraps, or shelterless. "Oh, this won't do," Crow said, disgusted, avoiding a pile of human excrement. "These creatures don't have books, Tern!"..He stood tongue-tied. After a while she looked up at him. "No," she said in a soft, quiet voice, "I don't think it's true. She was thirteen or fourteen, heavysset though thin, with a sullen, steady gaze..In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had escaped him..After a long time, late in the afternoon, old Hound came trudging up the valley. He stopped now and then and sniffed. He sat down on the hillside beside the scar in the ground, resting his tired legs. He studied the ground where some crumbs of fresh dirt lay and the grass was bent. BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end.. "Seemed odd. Six to seven hundred years ago a sky-god religion began to spread across the islands, a development of the worship of the Twin Gods Atwah and Wuluah, originally heroes of a desert saga from Hur-at-Hur. A Sky Father was added as head of the pantheon, and a priestly caste developed to lead the rites. Without suppressing the worship of the Old Powers, the priests of the Twin Gods and the Sky Father began to professionalise religion, managing the rituals and festivals, building increasingly costly temples, and controlling public ceremonies such as marriages, funerals, and the installation of officials..
