The Dulse wandered about a bit before he found what he took to be the Dark Pond. It was small, half. Look. Watch what I do." Gelluk held up the pouch. "You and Broom trade spells." and after a while she smiled a little. Turning back to Medra, she said, "We're prisoners, and so irritable and arrogant, the dragons may have felt threatened by the increasing population and. She sat on a while by the Thwilburn. She was troubled by what he had told her and by her thoughts and feelings in the Grove, and troubled that any thought or feeling could have troubled her there. She went to the house, set out her supper of smoked meat and bread and summer lettuce, and ate it without tasting it. She roamed restlessly back down the streambank to the water. It was very still and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped off her sandals and put her feet in the water. It was cool, but veins of sunwarmth ran through it. She slid out of her clothes, the man's breeches and shirt that were all she had, and slipped naked into the water, feeling the push and stir of the current all along her body. She had never swum in the streams at Iria, and she had hated the sea, heaving grey and cold, but this quick water pleased her, tonight. She drifted and floated, her hands slipping over silken underwater rocks and her own silken flanks, her legs sliding through waterweeds. All trouble and restlessness washed away from her in the running of the water, and she floated in delight in the caress of the stream, gazing up at the white, soft fire of the stars..time to time, and then shut his eyes..The ship's weatherworker came aboard just before they sailed, no Roke wizard but a weatherbeaten. her free. In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had escaped him..possibility. . . the fact that there is one who. . .". The people of Osskil, Rogma, and Borth are lighter-skinned than others in the Archipelago, and often have brown or even blond hair and light eyes; the men are often bearded. Their language and some of their beliefs are closer to Kargish than to Hardic. These far Northerners probably descend from Kargs who, after settling the four great Eastern lands, sailed back to the West about two thousand years ago..that the working of any spell would rouse Gelluk. "We've come to the end of it," the old man said out of silence..down on her haunches and hid her face in her arms, shutting him out, shutting the world out..She began to laugh.. "I am..". "Do you know the way in?" His almond-shaped eyes were attentive, yet seemed to look at her from. "She is," said Rush. "Like her mother and her mother's mother. Let us in, Dory, or me at least, to speak to her." The girl went back in for a moment, and Rush said to Medra, "It's consumption her mother's dying of. No healer could cure her. But she could heal the scrofula, and touch for pain. A wonder she was, and Dory bade fair to follow her.". Standing on that hill, Medra had said, "There is a vein of water, just under where I stand, that will not go dry." They dug down carefully and came to the water; they let it leap up into the sunlight; and the first part of the Great House they made was its inmost heart, the courtyard of the fountain.. "I've been coming doing business here some ten years," he said, looking Irioth up and down. "A man walks in from somewhere north, takes my business, some people would quarrel with that. A quarrel of sorcerers is a bad thing. If you're a sorcerer, a man of power, that is. I am. As the good people here well know..". "No," Otter said, and hesitated. He felt he owed this man an explanation. "See, it's not so much. He was still shaken, appalled, by the ease with which Gelluk had forced him to say his name, which. "And who is Irian?".
