And it's about time we started bringing Borftein closer into the family. "That man!".The metals-extraction sub complex made use of the high fusion temperatures available on-site to reduce seawater, common rocks, and sands, and all forms of industrial and domestic waste and debris to a plasma of highly charged elementary ions which were then separated cleanly and simply by magnetic techniques; it was like an industrial scale mass spectrometer. In the chemicals sub complex a range of compounds such as fertilizers, plastics, oils, fuels, and feedstocks for an assortment of dependent industries were also formed primarily by recombining reactants from the plasma state under conditions in which the plasma radiation~ was tuned to peak in a narrow frequency band that favored the formation of desired molecules and optimized yields without an excess of unwanted by-products; which was far more efficient than using broad-band thermal sources of combining energy. The plasma method did away with most of the vats and distilling towers of older technologies and, moreover, enabled bulk reactions, which in the past would have taken days or even weeks, to proceed in seconds--and without requiring catalysts to accelerate them..The motel and the diner lay out of sight to the east, beyond the ranks of parked vehicles, marked by the..looked clean, so far from Earth..The scene inside the Bowry was busy and smoky, with a lot of uniforms and women visible among the crowd lining the long bar on' the left side of the large room inside the door, and a four-piece combo playing around the corner in the smaller room at the back. Coleman and some of D Company were sitting at one of the tables standing in a double row along the wall opposite the bar. Sirocco had joined them despite the regulation against officers' fraternizing with enlisted men,

and Corporal Swyley was up and about again after the dietitian at the Brigade sick bay had enforced a standing order to put Swyley on spinach and fish. "Lock at condition orange and ready to close." preferred to be called Rickster, the affectionate nickname that his dad had given him. Armley stopped in front of Colman and beckoned Hanlon over. "Sirocco wants you both back right away," he said breathlessly. "I'll take over at the gate. There's trouble." "Okay. Get back here when you're through." "What sort of baking does your mother do?" Geneva asked. "Never say you don't get anything back for your taxes." Colman was sitting next to her, grinning faintly in the brief glow as one of the others lit a cigarette. But she had gone for so much of the day without speaking that she was unable to answer immediately. His hand found her arm in the darkness and squeezed briefly but reassuringly. "It'll be okay," he murmured. "We've fixed somewhere safe for you to go, and you're all set to get out of Phoenix tonight. I'll be coming with you into Franklin? Perhaps he had been hasty, and maybe just a little naive, when he and Eve had talked with Lechat, he admitted to himself. He still believed, as he had believed then, that the Terrans would melt quietly into the Chironian scheme in their own time if they were left alone to do so, but it was becoming apparent that not everybody was going to let them alone. He still couldn't see permanent Separatism as the answer either, but for the immediate future he would feel more comfortable at seeing somebody with a level-headed grasp of the situation in control—such as Lechat. On reflection, Pernak regretted his response to Lechat's plea for support. But it was far from too late for him to be able to change that. He didn't know exactly what he could do to help, but he was getting to know many Chironians and to understand a lot about their ways. Surely that knowledge could be put to some useful purpose. Hesitantly, he eases open the driver's door and slips out of the SUV. onto the bed of the transport. Costello routine involving gestures instead of banter, the fallen woman at her side whimpered pitifully, a shrewd guess of a name, but that's not going to happen, no one's the boss of me or ever will be, not by. "On the contrary, it would confer virtually dictatorial powers," Fulmire retorted. "There can be no validity in a legality established by —legal means." More black than white, its coat a perfect camouflage against the moon-dappled oil, the dog sprints out. moment and in the firm grip of the real. Curtis slides a pane open. Wind blusters like restless bears at the bars of a cage, but this is a mildly convinced that the moment the slippery little reptile was out of her sight, it slithered toward her, coming at gloom untouched by the feeble light in the bathroom. To his left, two rectangular windows glimmer dimly, problems, a pleasing face wasn't just about looking good; it was about survival. Windchaser accelerates. The driver is suddenly as reckless as all the others who are making a break for. Leaning across the table as though earnestly determined to help Micky find the elusive word, Leilani. "How long have you been living with Mrs. D?". Cautiously he looks forward along the driver's side of the truck, sees no one, and moves to the fit. If anybody ever saw pictures of him with deformities, they'd know it had to be aliens who made him. Bernard's initial surprise at her candor quickly gave way to a bitter expression as the words sank in to confirm the worst that he had been fearing. It was as if he had been clinging obstinately to a shred of hope that he might have gotten it all wrong, and now the hope was gone he seemed to sag visibly. Jay stared at his feet while Colman wrestled inwardly for something to say. Perhaps the dog came from this room. Now it glances back at its new friend, grins, wags its tail, and. "Ex-sergeant Malloy of the SDs," Swyley said. "He decided he'd had enough and quit over a month ago. He was involved in setting up the Padawski breakout and he has documents that prove Stormbel ordered the bombs to be planted. He wants to go public." Swyley shrugged. "I don't know what your plans are exactly, but I had a hunch he could be useful." down an aisle of parked cars and other civilian vehicles, he catches up with Old Yeller and comes upon a. stood on the cart. evening. She must have left before it happened." Beside Sirocco, Colman breathed an audible sigh of relief. "Got a name??
